I would like to propose a solution to a problem that has come of light recently.

Our last two speakers have had to deal with interruptions due to dinner service continuing on past the start time of 6:30. This makes it difficult to hear the speakers, and is disrespectful to the speakers as well.

I would like to suggest that members meet in the main dining area for dinner, and arrive in the adjacent meeting room by 6:20, before the start of the meeting at 6:30.
